ADARSH GUPTA

B.Tech Computer Software Engineering | IIEST Shibpur | Full-Stack & Product Development
Varanasi, Uttar Pradesh, India | +91 9450930776 | adarsh07gupta@gmail.com
github.com/adarshgupta162 | linkedin.com/in/adarsh07gupta

SUMMARY

First-year Computer Software Engineering student who builds real SaaS products, from a JEE test-series platform to a pharma CRM/ERP, using React, TypeScript and Supabase. Currently strengthening C++ and Data Structures & Algorithms to become placement-ready.

EDUCATION

Indian Institute of Engineering Science and Technology (IIEST), Shibpur 2026 – 2030
B.Tech, Computer Software Engineering (currently in 1st semester)

Little Flower House Senior Secondary School, Varanasi 2023 – 2025
Class XII (Physics, Chemistry, Mathematics) | 83.4%

Varanasi Public School Completed 2023
Class X | 90.8%

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL, HTML/CSS

Frontend: React, Vite, Tailwind CSS, shadcn/ui

Backend & Data: Supabase, PostgreSQL, Row-Level Security (RLS), Edge Functions, role-based access control, SMTP, OAuth

Tools & Platforms: Git & GitHub, Vercel, Linux, VS Code, Lovable (AI-assisted development)

Core CS: Data Structures & Algorithms (Striver's A2Z sheet: recursion, arrays), LeetCode practice

PROJECTS

PhyNetix | *AI-powered JEE test-series platform*React, TypeScript, Supabase

- Building a JEE Main 2027 test series platform with an NTA-style computer-based test (CBT) interface, question-attempt flow and performance analytics.
- Designed modules for question bank, DPP management, batch management and an admin panel; built a repeatable Excel-based bulk question import pipeline (LaTeX to structured template) covering Physics, Chemistry and Mathematics.
- Explored online proctoring architecture: camera, microphone and screen-share monitoring, event logging and admin-side monitoring settings.

ShreekinOS | *Pharma CRM/ERP for Shreekin Life Sciences*React, Supabase, PostgreSQL

- Built authentication and role-based access control with role-based routing, plus a manager–employee hierarchy across regions, zones and territories.
- Implemented sales/MR workflows, field-employee attendance, joint field-visit planning and employee lifecycle management, secured with RLS policies and Edge Functions.
- Added a video-conferencing module with an embedded real-time reporting panel for manager–field team reviews.

CURRENTLY LEARNING

- **Backend engineering roadmap:** Node.js, Express, SQL/PostgreSQL, Prisma, authentication, security, testing and deployment.
- **DSA in C++:** working through Striver's A2Z sheet with regular LeetCode practice, targeting placement readiness.

CAMPUS INVOLVEMENT

ICCHE — Students' Outreach Programme, IIEST Shibpur | *Volunteer* 2026 – Present

- Volunteer with the institute's social outreach programme, which runs free classes for underprivileged children near campus.

Catharsis — The Photographic Society of IIEST Shibpur | *Member* 2026 – Present

- Member of the campus photography society, covering institute events and society photo activities.

INTERESTS

Full-stack development • Generative AI / AI-ML • Product development • Campus tech • Hackathons and open-source communities • Photography • Gaming • Travelling • Fitness
